## PROFILE SUMMARY

---

Motivated and detail-oriented front-end developer with hands-on experience in building responsive and interactive web interfaces. Skilled in modern technologies such as HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, and React. Demonstrates strong problem-solving abilities and a passion for clean, user-centered design. Committed to continuous learning and delivering high-quality, maintainable code in team or independent environments.

## EDUCATION

---

**BSc in Navigation Sciences -  
and Space Technology**

May — Expected 2027

*Beni-Suef University, Egypt*

## EXPERIENCE

---

**Front-End Developer Intern**

Oct 2024 – Present

*Digital Egypt Pioneers Initiative (DEPI)*

- Designed and developed responsive web applications using React, integrating state management with Redux.
- Implemented secure data flow through RESTful APIs and JWT-based authentication for user management
- Enhanced web application performance by applying React Hooks and optimizing components for faster load times..
- Utilized Docker for containerization, ensuring smooth deployment across different environments.
- Followed best practices for version control and code collaboration using Git, ensuring maintainability and scalability.

## TECHNICAL SKILLS

---

HTML | CSS | JavaScript | React | Bootstrap | Tailwind CSS | Responsive Design  
Version Control (Git) | Basic Data Analysis

## PROJECTS

---

**Personal Portfolio Website**

Jan 2025

- Designed and developed a personal portfolio website using HTML, CSS, JavaScript, and React to showcase

front-end development projects.

- Focused on responsive design to ensure a seamless user experience across devices.
- Implemented a contact form using React and integrated form validation for better user interaction. Led a cross-functional team in identifying and prioritizing key accounts for expansion efforts.
